

*What would you do
if your pet got lost?*

HomeAgain Microchips

1 in 3 pets will go missing during their lifetime, and without proper ID, 90% never return home. A microchip for dogs & cats gives the best protection with permanent ID that can never be removed or become impossible to read. Every month, HomeAgain reunites 10,000 pets with the people that love them. A microchip is the size of a grain of rice and the implant takes just seconds at your veterinarian's clinic. You will register your pet's microchip with HomeAgain via the easy to use website.

HomeAgain Pet Rescuers

HomeAgain PetRescuers are a nationwide network of over 650,000 pet lovers dedicated to helping return lost pets to the people that love them. Through community outreach, support, and networking they spread the word about the importance of pet microchips and registration. Together, we're making the world safer for lost pets!

HomeAgain PetRescuers has a FaceBook page to connect pet owners and rescuers.
