2026 – Issue 2

~~~~*~~*~~*~~*~~*~~*~~*~~*~~*~~*~~*~~*

February is all about those loving gestures, such as wagging tails, snuggle sessions and sweet kisses. However, you may notice stinky breath when you get those sweet kisses from your furbaby. If so, look at their teeth and gums. Bad breath is usually the 1st sign of dental disease. I am sure you can imagine how bad your breath would smell and how your teeth would look if you never brushed them.

A dog's teeth before (left) and after (right) a dental cleaning.

- Dental cleanings are very important and can extend the life of your pet up to 2-4 years.
- Warning signs your pet has dental issues: bad breath, drooling, decreased eating and decreased playing with toys...
- Bacteria from the mouth can affect intestines, liver, kidneys, and heart.
- While the pet is under safe anesthesia we examine, clean, polish, and seal the teeth. It is a quick procedure, and your pet will go home the same day.
- We also offer a variety of at home products to help keep your pets teeth clean between professional cleanings, such as CET Chews, Dental Water Additive and Tartar control treats.

PRICE MATCH ALMOST ALL
DRUGS?????**

If you buy from the online pharmacies, then we do not know if they are sending the proper product. You also are not supporting local businesses or keeping our staff employed. Also we do have an online store but that is a 3rd party and is lots more expensive than buying in our clinic.

WHAT'S NEW AT FVC

NEW Wellness Packages

Dr. Flanary has created packages to keep your pets healthy & give you savings at the same time. Since pet's cannot talk, bloodwork is our opportunity to look inside the pet's body & see if anything is wrong! You would be amazed at how many issues we detect with bloodwork & can treat before they become life threatening. So, we recommend a baseline blood chemistry panel with each yearly and discount it by \$10. A complete set of bloodwork is the best choice to keep your pets healthy and this option is discounted \$20 at the yearly. Standard Recommendation from the American Veterinary Medical Association is bloodwork once yearly!

In closing,

It's February and National Pet Dental Month. Can you imagine how bad our teeth would be if we didn't brush our teeth?? Exactly!! So now is the time to take advantage of our dental special and have your pet's teeth cleaned!

First, if you have not downloaded the PetDesk app on your phone or computer, please do so today! We have quit sending out letter reminders (due to price of postage) and this will be how you receive reminders as well as monthly specials. You will be able to contact us through the app as well! All of your pet's health information, lab results, vaccination records, and prescriptions are listed. You can refill prescriptions for pick up, set up appointments and ask us questions all through the app!

Did you know that we can mail your pets medications to you? If you would like to take advantage of this service, please let us know when you place your refill request. Also, did you also know we can *price match* most drugs PetMeds or Chewy advertises? Ask us about it at your next

medication refill! We try our best to earn your business for the best interest of your pet's health. We strive to keep local jobs & urge you to support local business as well instead of the large internet companies.

We have exciting news!

The addition to the clinic is underway thanks to D & D Construction. Our addition will include a state-of-the-art surgical suite, post operative recovery room, office space which will allow a fourth exam room in the existing building, a drive thru medication pick up window, and a home-inspired euthanasia room. We cannot wait to get this built so we can better serve you and your pets!
